

At PASL, our Neubauer Fellows are Fellows forever. We offer Senior Fellows focused professional development opportunities, providing continuous learning experiences that build the capacity to sustain ongoing student and school growth.

As part of our commitment to lifelong learning and informed by feedback from Senior Fellows on our Practitioner Advisory Committee, we are pleased to offer **Senior Fellow Institutes**. These full-day, multi-session learning opportunities address topics identified by Senior Fellows as relevant, timely, and needed to support their practice.

Senior Fellow Institutes Overview

Each Senior Fellow Institute will consist of full days of learning incorporating at least two sessions. Senior Fellow Institute offerings will be focused on four priority areas:

- Accelerate academic achievement
- Partner with families and community
- Improve safety and well-being
- Recruit and retain diverse and highly effective educators
